

Easy to remember : nine times tables

9	X	1	=	0 9
9	X	2	=	1 8
9	X	3	=	2 7
9	X	4	=	3 6
9	X	5	=	4 5
9	X	6	=	5 4
9	X	7	=	6 3
9	X	8	=	7 2
9	X	9	=	8 1
9	X	10	=	9 0

$9 \times 11 = 99$ and $9 \times 12 = 108$ (9 more than 99)

Easy ! Just learn the last two - you are clever and you will remember them !
